\* Returns are cumulative for funds with less than one year of performance.

Performance shown at NAV does not include applicable front-end or CDSC sales charges, which would have reduced the performance.

Performance figures reflect reinvested distributions and changes in net asset value (NAV) and the effect of the maximum sales charge unless otherwise stated.

Performance quoted is past performance and cannot guarantee comparable future results; current performance may be lower or higher. Investment return and principal value will vary so that you may have a gain or a loss when you sell shares.

Had fees not been waived and/or expenses reimbursed currently or in the past, returns would have been lower.

YTD returns are cumulative.

<sup>2</sup> Although the fund's return during certain periods was positively impacted by its investments in initial public offerings (IPOs), there can be no assurance that the fund will have favorable IPO investment opportunities in the future.

<sup>3</sup> Performance includes litigation proceeds. Had these proceeds not been received, total return would have been lower.
